Topik 240 EC

Last updated:

30.06.2020

Herbicide

Authorisation Number:

49344/1/0510, 49344/5/0510

Composition:

240 g/L

Clodinafop-Propargyl

60 g/L

Cloquintocet-Mexyl

Activity Group:

Group A Herbicide

Formulation:

Emulsifiable Concentrate | EC

Controls wild oats, paradoxa grass, canary grass and annual ryegrass in wheat. Highly active on wild oats and can be mixed with many broadleaf herbicides.

Product CP: Tabs

- [Application Advice](#)

Mixing and spraying

Fill the spray tank to one quarter full. Then add TOPIK while adding water to make up the final spray volume. Pour TOPIK into the stream of incoming water. Good agitation at the time TOPIK is added to the tank will ensure good mixing. Add the required amount of Adigor or similar compatible oil just before the tank is full of water and with the agitators in motion.

Water volume

Ground application: Apply using 50 to 110 L water/ha. Aircraft application: For best results use 30 L water/ha and spray at 2 to 3 m above the crop.
