- [Application Advice](#)

Other Restriction of Use

Heavy rain following application prior to emergence may cause damage to Chickpeas.

Mixing and spraying

1. Fill vat no more than 25% full with clean water before adding GESATOP 900 WG. Begin agitating vat contents vigorously and continue agitation during entire mixing and spraying operations. 2. Pour required amount of GESATOP 900 WG steadily into vat. Allow vigorous bypass agitation to completely

disperse product. DO NOT dump product into vat all at once. 3. After adding required quantity of GESATOP 900 WG and obtaining complete dispersion, continue to fill vat to desired level for spraying. Thorough agitation of the spray liquid should continue during the entire spraying operation.
