

[Crop-safe, pre-emergent weed control in pulses | VIDEO](#)

Broadacre
18.10.2019

A feature of Syngenta's Learning Centres in 2019 has been the trial demonstrations of the pre-emergent herbicide REFLEX®, which is providing control of those hard-to-control broadleaf weeds.

Syngenta Field Development Technical Manager Paul Chatfield talks here about what makes REFLEX so exciting for those growers and advisors who have seen it in action. Of particular interest has been how it stacks up against current market standard herbicides.
