Herbicide

Authorisation Number:

47653

Composition:

500 g/L

Prometryn

Activity Group:

Group 5 Herbicide

Formulation:

Suspension Concentrate | SC

Controls early competing weeds in carrots, chickpeas, potatoes and other crops.

Product CP: Tabs

- [Application Advice](#)

Mixing and spraying

Stir product or invert container several times before opening. Pour the product into the spray vat through a strainer to remove any dry particles or flakes, which can occasionally occur under hot storage conditions. Add the full quantity of the product to the partly filled spray tank while agitating. Fill tank and agitate to ensure thorough mixing. Continue agitation while spraying. Agitate vigorously from the bottom if allowed to stand. Reseal part used immediately.
